DISCUSSION and BACKGROUND

On December 21, 2007, the City Manager entered into a Professional Services Agreement with Omni-Means, Ltd. for engineering and design of the SR273/3rd Street Signal Project.

The City was awarded a Highway Safety Improvement Program (HSIP) grant in the amount of \$659,700 to construct road and signal improvements, including road widening, traffic signal, railroad crossing improvements, center median, storm drain, curbs and sidewalks improvements. Caltrans is partnering with the City on the project by providing significant funding as shown above. This federally funded grant was awarded to improve traffic safety at this location. The Engineer's estimate for construction including contingencies and construction engineering is \$700,000.

On July 2, 2010 at 10:00 am, four bids were received and opened. The lowest responsible bidder was J.F. Shea Construction, Inc. of Redding, California, with a low bid of Six Hundred Eighty Three Thousand Four Hundred Sixty (\$683,460) Dollars.
