From: Kristen Maze, Development Services Director

Date: January 9, 2012

Re: Parcel Map 11-01, Continued Public Hearing

The applicant's representative for Public Hearing Item 4.1, Parcel Map 11-01 has requested that this item be continued again until to the February 13, 2012 meeting. The applicants have received the conditions of approval and have indicated that they are not prepared to respond at this time, therefore are requesting the public hearing be postponed.

Because this item was legally noticed in the paper and to the surrounding property owners the public hearing must be opened and continued to a date certain.

I look forward to seeing you all there next Monday.
